Course Content

Significance- Total Productive Maintenance, is first developed in Japan, it is team-based preventive and productive maintenance and involves every level, from top executive to the floor operator. Course covers topics on goals of TPM the foundation of TPM and Inspection.

This programme is a team and shop floor based initiative programme focused on optimizing the effectiveness of manufacturing equipment. TPM helps workers efficiently care for the equipment and machines they work with, which will reduce costs, including money and space tied up with spare parts inventory.

Who Should Attend

TPM training is ideal for manufacturing organizations that are looking to enhance the overall efficiency of production facilities. The training is intended for all employees associated with the production system, from engineers and supervisors to shop floor workers, maintenance personnel and support staff.
