Significance of IS/ISO 17025:2005 based Laboratory Quality management Systems

- It specifies the general requirements for the competence to carry out tests and/or calibrations, including sampling.
- It covers testing and calibration performed using standard methods, non-standard methods, and laboratory-developed methods.
- Applicable to all organizations performing tests and/or calibrations. Including, for example, first-, second- and third-party laboratories, and laboratories where testing and/or calibration forms part of inspection and product certification.

Who Should Attend

The organizations which are implementing (or are in the process of implementing) LABORATORY QUALITY MANAGEMENT SYSTEMS (LQMS) as per IS/ISO 17025:2017 in their organizations require their executive at middle level or senior level trained in this area, preferably Lead Auditor for effective implementation of the system and those already trained as per IS/ISO 17025:2005
