Subject : Policy guidelines on Constancy of Raw Water Composition on account
Of cycles of minor natural fluctuations in case of Packaged Natural
Mineral Water as per IS 13428-1998.

As per the definition of Natural Mineral Water and Hygeinic Practices Appendix B of IS:13428 evidences are required to ensure constancy of Raw Water Composition on account of the cycle of minor natural fluctuations during different seasons of the year. Therefore, policy guidelines have been formulated and is being circulated after approval of Competent Authority. ROs/BOs are requested to follow the guidelines while sending the case for grant of licence for Packaged Natural Mineral Water.
